PROFESSIONAL SUMMARY

Full-Stack Software Developer with over 3 years of professional experience designing, developing, deploying and maintaining web applications. Specializes in JavaScript, TypeScript, React.js, Node.js, Express.js, MongoDB and Python, with practical experience building responsive interfaces, RESTful APIs, database-driven systems, authentication features and administrative dashboards. Also works across AI evaluation, data annotation, machine-learning data workflows and search quality rating, assessing AI-generated content and search results against quality and relevance guidelines. Brings analytical thinking, attention to detail, technical communication and developer-mentoring experience to onsite, hybrid and remote teams.

CORE TECHNICAL SKILLS

Frontend HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Bootstrap, Framer Motion, responsive design, React Router, Context API, Zustand, React Hook Form	**Backend** Node.js, Express.js, RESTful APIs, authentication and authorization, JWT, HTTP-only cookies, middleware, Socket.IO, server-side development, error handling
Databases MongoDB, Mongoose, PostgreSQL, Supabase, data modeling, database design and management	**AI & Evaluation** AI response evaluation, LLM quality assessment, data annotation and labeling, search quality rating, relevance assessment, machine-learning fundamentals and data workflows
Tools & Deployment Git, GitHub, Linux CLI, Bash, Docker, Nginx, Visual Studio Code, Vercel, Render, MongoDB Atlas, API testing and debugging	**Other Competencies** Software debugging, technical documentation, project implementation, developer mentorship, collaboration and remote-work practices

PROFESSIONAL EXPERIENCE

Senior Full-Stack Developer / Contract Instructor

WebCapz Technologies | 2025 – Present

- Lead development of web applications and contribute to scalable application architecture and feature implementation.
- Develop and integrate frontend interfaces, backend services and RESTful APIs.
- Mentor junior developers and technology beginners through practical software-development instruction.
- Collaborate with teams to resolve technical challenges and support code quality and application maintainability.

Full-Stack Developer

Lazervault Technologies Limited | 2023 – Present

- Develop and maintain full-stack applications using React.js, Node.js, Express.js and MongoDB.
- Build responsive user interfaces and integrate frontend applications with backend services.
- Implement REST APIs, authentication features, administrative dashboards and database-driven functionality.
- Troubleshoot application issues and contribute to performance, reliability and maintainability improvements.

Junior Web Developer

Digismath Technologies | 2021 – 2023

- Built responsive websites and web interfaces using HTML, CSS, JavaScript and Bootstrap.
- Implemented interactive frontend functionality and assisted with web application maintenance.
- Identified and fixed bugs, improved existing code and supported delivery of user-friendly websites.

SELECTED PROJECTS

E-Commerce Platform

React.js, Supabase, Stripe, Tailwind CSS

- Full-stack commerce application with product catalog, filtering, shopping cart, payment processing, authentication and an administrative dashboard.

School Management System
React.js, Node.js, Express.js, MongoDB, Socket.IO
- School administration platform with student-record tracking, administrative dashboard, real-time updates and chat functionality.

Hospital Management System
React.js, Node.js, Express.js, MongoDB, Tailwind CSS
- Healthcare administration platform covering patient records, appointment scheduling, staff management and operational dashboards.

Logistics Management Platform
React.js, Node.js, Express.js, MongoDB, Tailwind CSS
- Logistics application supporting shipment tracking, delivery management, transportation coordination and operations dashboards.

Agricultural E-Commerce Platform
React.js, Node.js, Express.js, MongoDB, Stripe, Paystack
- Agricultural marketplace with product listings, shopping cart, payment integration, user authentication and product administration.

Social Media Platform
React.js, Node.js, Express.js, MongoDB, Tailwind CSS
- Social networking application with user profiles, content sharing, social interactions, notifications and administrative features.

AI EVALUATION & ANNOTATION

Professional focus areas include evaluating AI-generated responses for quality and relevance; annotating and labeling data for machine-learning workflows; assessing search results for relevance, usefulness and intent match; and applying project-specific rating guidelines consistently. Relevant capabilities include LLM response quality assessment, search quality rating, content evaluation and data-quality review.

EDUCATION

Bachelor of Science (B.Sc.) in Microbiology
University of Abuja, Nigeria | 2018

CERTIFICATIONS & PROFESSIONAL TRAINING

- **Data Science and Analytics** — HP Foundation, 2026
- **Introduction to Cybersecurity Awareness** — HP Foundation, 2026
- **HTML, CSS and JavaScript for Web Development** — Johns Hopkins University (Coursera), 2023
- **Software Engineering Professional Training** — Digismath Technology Limited, 2023. Topics included Linux CLI, Bash scripting, Git/GitHub, C, Python, React.js, Node.js, Express.js, networking, Docker and Nginx.

ADDITIONAL INFORMATION

Work preferences: Onsite, hybrid and remote opportunities. **Target roles:** Full-Stack Developer, MERN Stack Developer, Software Engineer, React.js Developer, Backend Developer, Node.js Developer, Python Developer, AI Evaluator, AI Data Annotator and Search Quality Rater.

Professional references available upon request.
